## **Vocabulary Observation Form**

**Directions:** As students discuss their digital notes (definitions and/or examples) in small groups, record observed behaviors and achievements. For example, note (a) students' use of vocabulary words, (b) how they share/communicate with others, (c) accuracy of students' definitions and/or examples, and (d) possible misconceptions or misunderstandings.

| Student | Vocabulary Word (s) | Notes/Observations |
|---------|---------------------|--------------------|
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
|         |                     |                    |
