Literature Circles with Film Roles – Analyst

Your job is to find both symbols and themes in this section of the story.

- 1. Look for objects, times/places, characters/names, colors, phrases/dialogue, and actions that could mean more than they first appear to mean.
- 2. List symbols from the section you read and tell what you think they could mean.
- 3. Look for examples of the themes in the section you have read. These can be some of the symbols you located, setting/place, dialogue, and actions.
- 4. For the symbols and themes highlighted, also find the connection/ relevance to the rest of the story. L
