

## Phone Book Activity

Check your phone book to answer the following questions.

1. What is the first entry?
2. What is the last entry?
3. On what page is your family's name listed?
4. How many last names begin with the same letter as yours? (Count the listings in one column and multiply by the number of columns.)
5. Which letter takes up the most pages?
6. Which letters takes up the fewest pages?

Estimate: how many Smiths there are in your phone book.
